

RGA31

ISC ROPE GRAB

The RGA31 fitted with a pip-pin axle, making it quick and easy to attach/detach mid-line.

A thumb operated push-button is used to disengage the Pip-pin mechanism and the axle has a chamfered end, to allow for easy location of the pin. It comes with a textile pip-pin retention cord, (rather than a wire cord). The textile cord allows for easy manoeuvring of the pin and does not snag, or wear with sharp edges. The rope grab is for use with kernmantle rope.

Accredited to: EN 353-2:2002 for rope 10.5-13mm

Material: Aluminium

Weight: 180g

Max force: <6kN (with compatible rope e.g. RGRO11 or RGRO10.5)

Safety lock

Pip pin to allow quick attachment of rope + textile pin lanyard
