

RGK1/AT

19MM TRIPLE ACTION ALUMINIUM KARABINER

The RGK1/AT is a triple action alternative to the RGK1/A.

The triple action closure on this device means that the keeper automatically locks after fitting.

RGK1/AT is the basic universal karabiner used within the climbing industry where weight is important, with extra safety closure.

Each karabiner is supplied with an unique serial number for complete traceability and inspection control.
