

RGK50

18MM STEEL DOUBLE ACTION SWIVEL SNAPHOOK AND CAPTIVE EYE

The inner flat profile makes the RGK50 the most suitable and safe connector for attachment to step bolts.

The RGK50 is an alternative option to our other connectors. The 18mm gate opening allows for ideal connection to 16mm step bolts. Also the increased gate strength is a feature as required by ANSI standards.

Accredited to: EN 362:2004
ANSI Z359.12

Material: Aluminium body
Steel gate

Plating: Anodised

Gate opening: 18mm

Eye diameter: 30mm

External length: 185mm

Closure type: Double action

MBS: 23kN

Weight: 414g

Double action

Captive eye
